Hi, Here is what I learned about this issue:

The issue has to do with an ozone monitor in nonattainment on the shore of Lake Michigan in Sheboygan County. The state is asking to split the county into two areas given the lower ozone levels from the second, inland monitor. The R5 air program is working with OAQPS on the issue.

Region 5's CMS search returned only one control regarding this issue. This control (AL-17-000-5406) is from Sen. Johnson and Cong. Grothman. CMS did not return any controls from Gov. Walker on this issue. However, they only searched for controls from late 2016 to the present.

I do not know why I did not find this letter when I did a CMS search but am glad R5 did. As you can see, we did send a response to Rep. Grothman.

Pat
